01 · PROFILE

A bit about me

Software Engineer with 4+ years of experience building and maintaining production applications. I work across the full stack, with a strong focus on backend architecture, APIs, databases and infrastructure. I enjoy owning features from the initial problem and data model through implementation, deployment and production support.

02 · EXPERIENCE

Where I've worked

2022 - Present

Grupo Topdigital / Software Developer

Developing and maintaining a business-critical sales platform, working independently across frontend, backend and infrastructure.

- Own the end-to-end delivery of features, translating operational needs into maintainable technical solutions.
- Build frontend and backend functionality using Angular, TypeScript, Express.js and .NET across APIs, business logic and user interfaces.
- Design REST APIs, relational data models and asynchronous processes backed by MariaDB and Redis.
- Automate internal workflows and data extraction tasks, reducing repetitive work and improving operational consistency.
- Investigate production incidents, support containerised deployments and improve application reliability with technical and business stakeholders.

Angular · TypeScript · Node.js · Express.js · .NET · MariaDB · Redis · Docker · Linux

03 · SELECTED PROJECT

Kreate

Things I've built

KREATE.ES ↗

A platform that helps junior developers gain real-world experience by completing structured software projects, building stronger portfolios and showing what they can do beyond tutorials.

Next.js · TypeScript · PostgreSQL · Drizzle · Clerk

04 · SKILLS

What I work with

CORE

TypeScript · Node.js · Express.js · Angular · Next.js

BACKEND & DATA

REST APIs · PostgreSQL · MariaDB · Redis · tRPC · Drizzle · .NET

INFRASTRUCTURE

Docker · Linux · CI/CD · Traefik · Kubernetes · Python · Go · Rust

05 · EDUCATION

Academic background

B.Sc. in Electronic Systems Engineering

University of Málaga

2017 - 2022
